

**Location : Mumbai**

Seven Hills Hospital is one of Asia's largest medical facilities to have come up in recent times. Located in the heart of Mumbai, just 3 km from the international airport, this state of the art hospital is spread over a sprawling 17 acres of scenic landscape. Apart from the hospital itself, this campus provides for residential accommodation for its doctors and staff, an academic and research institute, and a business and convention centre.

The total built-up area is 2,000,000 ft.<sup>2</sup>, with 1500 beds, 300 critical care beds, 36 operation theatres and 120 outpatient clinics. A helipad is being provided on campus to facilitate air ambulance and emergency evacuations.

Seven Hills Hospital, Mumbai became operational in 2011 but the promoters of the hospital have experience of over 25 years in running top class medical facilities in other parts of India. This hospital is conceived as a state-of-the-art medical facility which combines the latest in technology with the best medical brains in India and a very strong commitment to outstanding treatment at value for money prices.
