

Location : Bangalore

Columbia Asia Referral Hospital – Yeshwanthpur, Bangalore is a 200-bed facility located at Gateway Center in Yeshwanthpur, a district in Northwest Bangalore. The hospital provides comprehensive tertiary-level services, such as cardiac diseases, orthopedics and neuroscience, as well as secondary-level medical care.

Columbia Asia integrates evidence-based, internationally benchmarked medical practices with the latest technology, while providing the highest quality patient care. Our hospitals specialize in Transplants (Kidney, Liver), Interventional Cardiology and Cardiac Surgery, Neurosurgery, Orthopaedic Surgery, Surgical Oncology, Cosmetic and Bariatric Surgery and High-risk Pregnancies, among others. Columbia Asia has hospitals in several cities in India (go here for a map) and is in the process of setting up facilities in additional locations too.

At Columbia Asia Hospital, patients benefit from advanced medical diagnostics, treatment and the personal care that only comes in facilities where the focus is on each patient. Use the list below to learn more about what the hospital offers. Columbia Asia hospitals have certain key features that make us a preferred choice for patients. These include:

- A reputation for affordability and cleanliness
- Emphasis on efficient administration and accurate diagnosis
- Efficient clinical management and nursing care, which leads to shorter hospital stays
- Highly trained staff available around the clock
- Seamless integration of record-keeping, diagnostics and billing, which promotes transparency in dealings, and trust among our patients.
- Fair and standardized pricing structure that discourages unjustified high-cost surgeries and makes healthcare affordable and accessible to patients.

Internationally certified and trained consultants : Columbia Asia has internationally renowned and board-certified consultants at each of our hospitals. These consultants have years of work experience with international healthcare institutions and ensure the highest quality of treatment for our patients.

Patient care : Our medical and paramedical staff is committed to provide the highest level of medical care to our patients. Our unwavering focus on clinical training and service delivery ensures a high level of medical attention to the patients. The nurse-patient ratio in our hospital matches with international benchmarks to provide an unparalleled experience to the patients and their loved ones.

Accreditation and quality : Quality assurance and patient safety is of paramount importance to us. We strive to maintain the highest quality standards across all our hospitals and three of them have been accorded accreditation by the National Accreditation Board of Hospitals & Healthcare Providers (NABH), which in turn is a member of and accredited by the International Society of Quality Assurance (ISQua).
