Further Certification	MRCPCH (London), Dec 2005
Subspecialty training	Fellowship in Paediatric Haematology/Oncology –The Hospital for Sick Children, Toronto, Canada, Sept 2009

CURRENT POST

Consultant & Assistant Professor in Pediatric Oncology
Pediatric Oncology In Charge,
Department of Medical Oncology,

CAREER PLANS

I completed my specialist training in paediatric haematology / oncology on my background of general professional training in paediatrics and significant additional experience in this discipline. My ultimate desire is to pursue my career in India as an accredited specialist in this field.

My motivation for paediatric haematology / oncology is from two directions. I am a paediatrician & enjoy the challenges of clinical medicine and caring for acutely sick children & their families. I am also excited by haematology as a diagnostic specialty and its roots in contemporary, scientific medicine.
