

### **Location : Delhi**

Nova Specialty Surgery, Delhi offers state of the art surgical facilities across a number of specialties such as General Surgery, Orthopaedics, ENT, Oncology, Ophthalmology, Urology, Vascular, Pediatrics, Plastic Surgery and Pain Management. The Delhi center also boasts of a sophisticated Lasik machine for advance eye care and also has 5 OTs.

### **Services & Specialties**

Each Nova center is a multi-specialty, fully equipped medical facility located conveniently. It brings cutting edge medical technology and internationally trained physicians under one roof to give patients easy access to quality, affordable healthcare

Treatment is delivered in an outpatient setting, which helps increase efficiency and contains costs, making this a healthcare delivery model without parallel.

**Operation Theatres:** State-of-the-art operation theatres are the hallmark of every Nova Specialty Surgery Center. The Delhi Center has 4 such theatres with cubicles for pre-op and post-op care located alongside. Surgeries are scheduled for as early as 6 am to enable discharge on the same day.

**Gastroenterology Procedure Room:** The Nova Specialty Surgery Center has a specially equipped gastroenterology procedure room where endoscopies, colonoscopies and other procedures are carried out.

**Pre-op and post-op care:** At Nova, meticulous pre-op and post-op procedures supervised by physicians and nurses, are carried out to ensure the highest standards of patient care. The Delhi centre has 6 beds in pre-op and 10 beds in post-op which are monitored at all times by medical professionals.

**Diagnostic & Lab :** At the heart of every Nova Specialty Surgery Center is cutting edge diagnostic equipment and technology, and a sophisticated lab. And in partnership with the city's best radiologists, pathologists and diagnostic centers, Nova is able to provide comprehensive solutions to patient needs with minimum fees.

**Outpatient Department:** The OPD at every Nova Specialty Surgery Center is well equipped to manage patients across specialties. Each center has at least 5 OPD consultation rooms open from 8 am to 8 pm, manned by top notch physicians and support staff. Consultations are managed by a strict adherence to prior appointments to ensure minimal waiting time.
