

**Location : Bannerghatta Road, Bangalore**

With over 40 hospitals across the country, over 5000 beds and 48000 surgical procedures in the last year alone, Fortis is one of India's largest healthcare and Asia's fastest growing networks.

Fortis Hospitals, Bangalore comprises three facilities located in the city of Bangalore. The main hospital at Bannerghatta Road, a 400 plus bed facility, is amongst the most modern hospitals in India. It brings together cutting edge medical technology, outstanding medical expertise and great sensitivity to patients' needs. The hospital receives a large number of foreign patients including many from North America and Europe.

It is a true multi-faculty hospital and covers practically all medical disciplines. It is particularly reputed for its expertise in cardiology, cardiac surgery, brain & spine, Minimal Access Surgery and orthopaedics.

The hospital is certified by JCI-USA ( Joint Commission International, USA ), a US Govt. agency. This certification confirms that the hospital meets or exceeds the standards laid down for hospitals in the USA. For more information on JCI, please log on to <http://www.jointcommissioninternational.org/>

Fortis Hospital is a facility that is approved by the world's leading providers of medical insurance, including Aetna, BUPA, Cigna, GMC, HTH Worldwide, Vanbreda and World Access and was recently ranked first among Medical Tourism Hospitals globally by MTQUA ( Medical Travel and Health Tourism Quality Alliance).
